

ContactMate – eLead Collection Service

More efficient and contactless operations on the stand – forget about fill in forms

Speed up the processing of business cards and questionnaires. Take the draw. Create an electronic survey form or feedback questionnaire. The solution is the **ContactMate** service, which collects the contact information of trade fair guests in your stand. Register a contact with the **ContactMatePro** mobile app or rental device with one click and quickly go to the questions you have created by tapping the screen and selecting your customer's answers. In accordance with data protection, an electronic register of scanned guests is stored, with which you handle post-marketing efficiently and quickly.

Versatile features allow for reliable and fast storage of contacts. A mapping form can be downloaded to the product to target follow-up actions, such as raffles, invitations to tender, procurement plans, or newsletter subscriptions.

ContactMate base service includes

- Opening the service, instructions, saving contact information to the service and saving to Excel.
- Event-specific license for five users.

Extra services

- Additional users in 5 pieces.
- An efficient electronic mapping form, which we assist in compiling.
- Professional device for application use in the department.
